Program: 28th Arab-German Business Forum

In an increasingly diverse global landscape, German and Arab companies are expanding their business relations. The flourishing synergy is exemplified by the substantial growth in *bilateral trade* reaching 62.1 billion euros in 2023, reflecting a continued upward trend despite geopolitical challenges. This strong economic partnership is supported by the expertise of German firms in key sectors such as machine engineering, energy, health, automotive technology, infrastructure, logistics and hospital equipment, demonstrating a commitment to collaboration that persists even in the face of complex global dynamics.

The *Ghorfa Arab-German Chamber of Commerce and Industry* is committed to strengthening economic ties between Arab countries and Germany, offering a vital platform for collaboration and networking. At the heart of this mission is the annual *Arab-German Business Forum*, held under the patronage of the Federal Ministry for Economic Affairs and Climate Action.

The *forum* focuses on enhancing existing partnerships, exploring new avenues for cooperation, and promoting sustainable growth and innovation. Through interactive discussions and networking opportunities, we empower business leaders to tackle challenges, share insights, and forge long-lasting connections. The forum underscores our dedication to fostering a dynamic and innovative Arab-German dialogue while promoting economic exchange.

We are pleased to invite you to the *28th Arab-German Business Forum*.

The forum will feature an exciting lineup of panel discussions covering critical topics such as *Smart Cities*, *AI-driven Economic Diversification*, and *Arab Free and Special Zones for Innovation*. We will also explore *Logistics and Aviation Strategies*, *Collaborations in Food and Health Technologies*, and *Sustainable Water and Energy Solutions*. Additionally, the forum will explore *Visions for Sustainable Arab-German Economic Cooperations*.
